

MINWAX® Presents Canadian True North Style

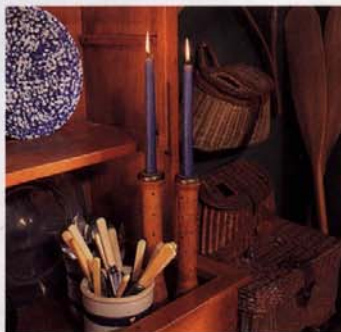

Create a Country Cabin

with help from Minwax.

The theme of this rustic dining room is "Canadian Country Cabin," the hottest new style of decorating. It's a style that brings the rugged charm of a wilderness cabin to your

city apartment or vacation home. We asked the experts at Minwax and Nitty Gritty Reproductions to share their recipes for the aging and finishing of new reproduction furniture for you to try. You'll find full instructions and our decorating lesson on the following page. Then we created this dining room in True North Style to show you the colours, fabrics and accessories that you can combine to recreate the charm of a country cabin in your home.

MINWAX products make it easy! Over 88 years of wood-finishing technology have gone into the development of these products, and each can is labelled with simple directions.
