

Design Rivals

Episode: Design Rivals 1009

hosted by: [Chris Hyndman](#), [Steven Sabados](#)

Star Power: Chris and Steven meet their agent, Lilana on the set of *The Young and the Restless* where they are able to get the inside scoop on this busy lady from one of her dearest friends and client, Melody Thomas Scott (aka Nikki Newman).

Back at Lilana's condo a makeover is certainly necessary, including gutting the kitchen! With all the working and traveling Lilana does, Steven wants to make her living room and dining room a warm place where she can enjoy being by herself.

Chris doesn't see Lilana slowing down at all and wants to give her a glamorous, soap-opera inspired setting where she can meet clients and entertain in style. Chris and Lilana smile pretty for some glamorous headshots while Steven leads the team in transforming the space.

When she returns home, thanks to the rich mahogany floors and painted and wood paneled walls Lilana doesn't recognize her own home. She is speechless at the sight of her cozy, yet luxurious and fresh new living room. The glamorous, yet not intimidating, dining room amazes her. Not much of a cook, Lilana resolves to take lessons so that she can truly appreciate her brand new stainless steel appliances, white cupboards and black granite countertops. Her condo has become a glamorous, cozy space she can proudly show off to anyone on the A-list and enjoy in solitude.
